

NOTICE TO PROSPECTIVE FOOD SERVICE OPERATORS

If you are planning on opening a restaurant or food service establishment in Fountain Hills, you must first contact the following three governmental entities:

Town of Fountain Hills

The Town of Fountain Hills is responsible for items such as building codes and permits, business licenses, sales tax information and planning and zoning, all of which may impact your restaurant. Information may be obtained at:

Maricopa County Environmental Services Department

To open a permanent or temporary (i.e. special events, farmers market, etc.) food/drink service establishment, you must obtain a permit to operate from the Maricopa County Environmental Services Department. Information may be obtained at:

Fountain Hills Sanitary District

Your restaurant may require the installation or upgrade of grease removal facilities. The need for and the type of facilities are determined by the specific restaurant equipment and planned use. Please contact Chris Kiriluk at the Sanitary District at 480-837-9444 for assistance in determining the specific requirements. Failure to install properly sized grease removal facilities can delay the opening of your food service operation.

All grease traps and interceptors must be inspected by Sanitary District staff, prior to the Sanitary District approving relevant permits through the Town's approval processes. Information may be obtained at:
